**NOTICE TO SHAREHOLDERS**  
**(“Notice”)**

22 October 2025

Dear Shareholder,

We are writing to you to inform you of changes being made to certain sub-funds of the Company (the “**Funds**”).

Unless otherwise specified below, these changes will be reflected in an amended supplement for the Funds and/or prospectus to be dated on or around 21 November 2025 (the “**Effective Date**”).

The changes outlined below will not have a material impact on the investment strategy or risk profile of the Funds. There are no new fees, charges or increases in existing fees or charges borne by the Funds because of the changes. There will be no material adverse impact on the rights or interests of the Shareholders in the Funds. There will be no material change in the operation and/or manner in which the Funds are managed.

*The terms used but not otherwise defined in this Notice shall have the same meanings as those defined in the latest prospectus for the Company and/or the supplement for the Funds (the “Prospectus”).*

**1. Introduction of a minimum commitment in sustainable investments**

The Funds listed below, which currently promote environmental and/or social characteristics pursuant to Article 8 of the Sustainable Finance Disclosure Regulation (the “**SFDR**”), will adopt a new commitment to invest a minimum percentage of their respective net asset value in sustainable investments.

<b>Fund Name</b>	<b>Minimum commitment of net asset value in sustainable investments</b>
Janus Henderson Global Investment Grade Bond Fund	5%
Janus Henderson Global Life Sciences Fund	10%
Janus Henderson Global Real Estate Equity Income Fund	10%

*Why have we decided to include the commitment?*

Janus Henderson Investors Europe S.A., as the Manager to the Company, continuously monitors and performs assessments of the Company’s sub-funds to ensure they continue to meet client expectations and needs. Feedback from clients suggests there is demand for the Funds to commit a minimum level of exposure to sustainable investments. In response to this demand, the Manager, on the recommendation of the Sub-Investment Adviser, has decided to introduce a minimum commitment in sustainable investments for the Funds.

### What do we mean by sustainable investments?

The Sub-Investment Adviser will use its sustainable investment methodology to determine which investments may be considered sustainable investments.

The Sub-Investment Adviser uses a pass/fail test meaning that each sustainable investment must meet all three of the requirements below:

1. it positively contributes to an environmental or social objective;
2. it does not cause significant harm to any environmental or social sustainable investment objective; and
3. it follows good governance practices.

With respect to the Janus Henderson Global Life Sciences Fund and the Janus Henderson Global Real Estate Equity Income Fund, an investment will be determined to make a positive contribution to an environmental or social objective where:

1. its business activity, defined as a minimum 20% of revenue, positively contributes to environmental and/or social objectives, which may include but are not limited to, alternative energy, energy efficiency, pollution prevention, nutrition, sanitation, and education; or
2. its business practices incorporate carbon emissions targets approved by the Science-Based Targets initiative (SBTi).

With respect to the Janus Henderson Global Investment Grade Bond Fund, an investment will be determined to make a positive contribution to an environmental or social objective where:

1. its business activity, defined as a minimum 20% of revenue, positively contributes to environmental and/or social objectives, which may include but are not limited to, alternative energy, energy efficiency, pollution prevention, nutrition, sanitation, and education; or
2. its business practices incorporate carbon emissions targets approved by the Science-Based Targets initiative (SBTi); or
3. in the case of Green, Social and Sustainability Bonds 100% of the proceeds must be exclusively and formally applied for the financing or refinancing of projects with social and/or environmental benefits.

There will be no changes to the Funds' existing portfolio as a result of the above amendment, and therefore no associated transaction costs.

A summary of the amendments to the existing disclosures is included in **Appendix A**.

### **2. Janus Henderson Global Short Duration Income Fund & Janus Henderson Global Short Duration Income Opportunities Fund - changes to SFDR classification**

The Prospectus will be updated to reflect that the Janus Henderson Global Short Duration Income Fund and the Janus Henderson Global Short Duration Income Opportunities Fund promote environmental and/or social characteristics as defined under Article 8 of SFDR.

This update is being made in response to increasing demand from investors to embed environmental and social commitments into the Funds' investment processes. With the introduction of these changes to the prospectus the Funds will make binding commitments to promote environmental and/or social characteristics.

An Article 8 fund under SFDR is classified as a fund that:

*"Promotes, among other characteristics, environmental or social characteristics, or a combination of those characteristics, provided that the companies in which the investments are made follow good governance practices"*

The Funds will introduce the following new binding criteria to their investment strategies:

- Apply screens so that the Funds do not invest in issuers that are in breach of the UNGC Principles (which cover matters including human rights, labour, corruption, and environmental pollution).
- Leverage a proprietary ESG framework, utilising both third party data and proprietary insights, to produce company ratings for corporate credit issuers. To encourage the adoption of better environmental and/or social practices the Funds will only invest in corporate credit issuers falling within the top 5 of the 6 ratings produced.
- Leverage a proprietary ESG framework, utilising both third party data and proprietary insights, that incorporates at least 20 metrics across environmental, social, and governance factors to produce country-level ESG ratings ranging from AAA to CCC. To encourage the adoption of better environmental and/or social practices the Funds will only invest in sovereign issuers rated B or higher.
- Leverage a proprietary ESG framework, utilising both third party data and proprietary insights, to produce agency mortgage-backed securities issuer ratings. To encourage the adoption of better environmental and/or social practices the Funds will only invest in the top 5 of 6 ratings.
- Apply screens to exclude direct investment in corporate issuers based on their involvement in certain activities. Specifically, issuers are excluded if they derive more than 10% of their revenue from tobacco, adult entertainment, thermal coal, oil sands, arctic oil and gas.

In addition, the Funds will also apply the Firmwide Exclusions Policy to all the investment decisions made by the Sub-Investment Adviser. The Firmwide Exclusions Policy may be updated from time to time. Presently, investment is not permitted in entities involved in the current manufacture of, or minority shareholding of 20% or greater in a manufacturer of controversial weapons, namely: (i) cluster munitions; (ii) anti-personnel mines; (iii) chemical weapons; (iv) biological weapons.

Further, the following Principal Adverse Impact (“PAI”) will be considered by the Funds:

Principal Adverse Impact	How is PAI considered?
GHG emissions	Exclusionary screens
Carbon footprint	Exclusionary screens
GHG intensity of investee companies	Exclusionary screens
Exposure to companies active in the fossil fuel sector	Exclusionary screens
Violations of UNGC principles and OECD Guidelines for Multinational Enterprises	Exclusionary screens
Exposure to controversial weapons	Exclusionary screens

There will be no changes to the Funds’ existing portfolio as a result of the above amendments, and therefore no associated transaction costs.

Opportunities Fund will change from the **FTSE 3-Month US Treasury Bill Index** to the **ICE BofA 3-Month U.S. Treasury Bill Index**.

The new reference benchmark is considered more appropriate given the Funds' short duration and absolute return objectives, and will also provide investors with a more suitable peer-to-peer comparator.

In addition, with respect to the Janus Henderson Global Short Duration Income Fund, the below two investment restrictions will be removed to provide greater flexibility for the Sub-Investment Advisor to generate absolute return opportunities, whilst also maintaining the Fund's existing risk profile.

- No more than 1% of the net asset value of the Fund may be invested in subordinated securities issued by the same issuer.
- The mortgage-backed, asset-backed and credit linked note securities in which the Fund may invest will be rated investment grade or if unrated, deemed to be of comparable quality by the Investment Adviser or Sub-Investment Adviser.

**4. *Janus Henderson Flexible Income Fund, Janus Henderson Multi-Sector Income Fund & Janus Henderson US Short Duration Bond Fund – expansion of asset allocation scope used to meet the environmental or social characteristics promoted by the Funds***

The SFDR disclosures of the Janus Henderson Flexible Income Fund, Janus Henderson Multi-Sector Income Fund and the Janus Henderson US Short Duration Fund will be amended to reflect an expanded coverage of securitised assets with respect to the Funds' sustainable approach and environmental and social asset allocation. The expanded coverage will allow the Sub-Investment Adviser to apply its proprietary ESG framework across all types of securitised assets instead of the existing scope, which only applies to agency mortgage-backed securities. Accordingly, this will allow the Sub-Investment Adviser to consider all securitised issuers as part of the Fund's environmental and social asset allocation.

With respect to the Janus Henderson US Short Duration Bond Fund, investments into Eligible Collective Investment Schemes will form part of the percentage of assets that are aligned with the environmental and social characteristics of the Fund. Such investments may also include investing into other Funds with the same environmental and/or social characteristics for the purpose of SFDR.

With respect to the Janus Henderson Flexible Income Fund and Janus Henderson Multi-Sector Income Fund, investments into Eligible Collective Investment Schemes will form part of the remaining percentage of assets that are neither aligned with the environmental nor the social characteristics of the Fund. Such investment may also include investing into other Funds with different environmental and/or social characteristics for the purpose of SFDR.

A summary of the amendments to the existing disclosures is included in **Appendix A**.

**5. *Janus Henderson Balanced Fund – clarificatory updates regarding the measurement of engagement outcomes of ESG laggards or UNGC violators***

The SFDR disclosures regarding the binding criteria of the Janus Henderson Balanced Fund's investment strategy will be amended to clarify that the Sub-Investment Adviser is able use its own research and engagement to invest or continue to stay invested in issuers, despite having an ESG laggard rating or UNGC Fail status from a third-party provider during the engagement period. This amendment is being made to better clarify the Fund's existing practice.

The SFDR disclosures regarding the binding criteria of the Fund's investment strategy will be amended with the additional language underlined below, whereby the Sub-Investment Adviser will:

- Engage with issuers in breach of UNGC principles and will only invest or continue to be invested if it considers through such engagement that they are on track to improve. If the

issuer does not achieve a “pass” rating within 24 months, it will divest and screens will be applied to exclude the issuer, unless the Sub-Investment Adviser elects to invest or continue to stay invested in such issuers as a result of observed improvements measured by the Sub-Investment Adviser’s own ESG research and engagement.

- Consider corporate issuers of equities with a rating of B or CCC to be ESG laggards. It will engage with such issuers and will only invest or continue to be invested if it considers through such engagement that they are on track to improve and that the rating of the issuer will be upgraded. If the issuer’s rating is not upgraded within 24 months, it will divest and screens will be applied to exclude the issuer, unless the Sub-Investment Adviser elects to invest or continue to stay invested in such issuers as a result of observed improvements measured by the Sub-Investment Adviser’s own ESG research and engagement.

#### **6. Janus Henderson Balanced Fund & Janus Henderson US Balanced 2026 Fund – addition of cash within non-equity investment allocation**

The Prospectus will be updated to reflect the addition of cash as an asset class within the portion of the non-equity investments of the Janus Henderson Balanced Fund and the Janus Henderson US Balanced 2026 Fund. This update is being made to provide greater flexibility for the management of the Funds’ unrealised foreign exchange profits and there will be no impact to the Funds’ existing portfolios.

The updated non-equity allocation of the Funds will be amended as below:

- **Janus Henderson Balanced Fund:** 30% - 65% of the Fund’s net asset value will be invested in Debt Securities, loan participations or cash.
- **Janus Henderson US Balanced 2026 Fund:** 55% - 75% of the Fund’s net asset value will be invested Debt Securities or cash.

#### **7. Janus Henderson Global Investment Grade Bond Fund – updated expected leverage**

The expected level of leverage for the Janus Henderson Global Investment Grade Bond Fund as disclosed in the Prospectus will be updated from 100% to 110% of the Fund’s Net Asset Value. This is a clarificatory update to more accurately reflect the Fund’s actual leverage. There will be no impact to the Fund’s risk profile.

#### **8. Janus Henderson US Balanced 2026 Fund, Janus Henderson Balanced Fund, Janus Henderson Flexible Income Fund, Janus Henderson US Short Duration Bond Fund & Janus Henderson Global Adaptive Multi-Asset Fund – clarificatory enhancements to fund strategy**

The investment strategy sections with respect to fixed income investments of the Janus Henderson US Balanced 2026 Fund, Janus Henderson Balanced Fund, Janus Henderson Flexible Income Fund and the Janus Henderson US Short Duration Bond Fund will be updated to provide a consistent description of how the Sub-Investment Adviser seeks to achieve the Funds’ objectives by providing that the Sub-Investment Adviser will incorporate “top-down” and “bottom-up” factors to identify and manage exposure to risks across sectors, industries, and individual investments.

Similarly, the investment strategy section with respect to the Janus Henderson Global Adaptive Multi-Asset Fund will be updated to provide a more accurate description of how the Sub-Investment Adviser seeks to achieve the Fund’s objective, by providing that the investment process uses proprietary technology to assess the future probability of extreme market moves, both to the upside and downside.

These amendments are purely clarificatory and there are no actual changes to the strategy of the Funds. A summary of the amendments to the existing disclosures is included in **Appendix A**.

<b>Janus Henderson Flexible Income Fund</b>	<p>(...)</p> <p>The Sub-Investment Adviser seeks to identify the best opportunities across fixed income markets using a bottom-up, fundamentally driven investment process. This approach rests on a belief that some companies have inherent strengths for creating shareholder values over time, have better prospects than their peer groups and should therefore outperform even in challenging industrial and economic circumstances. This approach drives decision making at a macro level, combined with informing risk and sector allocation decisions.</p> <p>To undertake this analysis the Sub-Investment Adviser uses its own proprietary portfolio construction methodology that expands the range of available investments in which to make sector allocation decisions. This methodology aligns with the Fund's objectives and seeks to maximize returns by taking advantage of inefficiencies in the fixed income market. <p><b>Janus Henderson Global Adaptive Multi-Asset Fund</b></p>	<p>(...)</p> <p>The Sub-Investment Adviser generally takes a "bottom-up" approach to building portfolios. In other words, they seek to identify strong businesses with sustainable competitive advantages and improving returns on capital. The Fund follows an investment strategy in which companies are considered principally on their own fundamental qualitative and quantitative characteristics. Commonly referred to as stock picking or bottom-up investing, portfolios of fundamental-based investment funds are built one security at a time following intensive in-house research into each company. Areas of research focus can include the company's management, financials, competitive strengths and weaknesses, earnings growth prospects and numerous other metrics. This approach rests on a belief that some companies have inherent strengths for creating shareholder value over time, have superior prospects to their peer groups and should therefore outperform even in challenging industry and economic circumstances.
